2024 Scott Associates Spring Plant Dividend Pick-up

Friday, May 10 from 2 to 4 pm – Drive-by Only

Saturday, May 11 from 8:30 to 10:30 am – Walk-up Only

One of your benefits as a Scott Associate is receiving free spring and fall plant dividends. We invite you to pick-up your dividend during the Members' Plant Exchange and Sale on Friday, May 10 and Saturday, May 11.

To pick up your Scott Associates Plant Dividend:

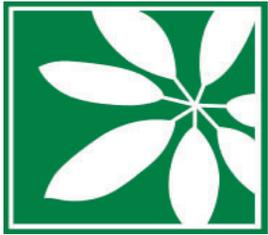

Review the attached 2 descriptions to determine your top choice. Both are available while supplies last.

Drive-by Instructions: Friday, May 10 from 2 to 4 pm

- 1) Before you leave your house, write down your top choice on a piece of paper so it can be read from 3 feet away.
- 2) **Bring your Scott Associates membership card and top choice sign with you.**
- 3) To avoid the Members' Plant Exchange and Sale activities, *distribution will occur on Elm Ave. next to the 404 Elm Ave building.* To get there, turn onto College Ave. then right onto Cedar Ave., finally a right onto Elm Ave. and join the line of cars.
- 4) Hold up your membership card and paper sign so we can see your name and top choice.
- 5) **Please do NOT get out of your car.** Pop your trunk, roll down your back passenger window, or leave the back door unlocked.
- 6) We will place your Spring Plant Dividend plant in a Scott tote bag and place it in your trunk or back seat.

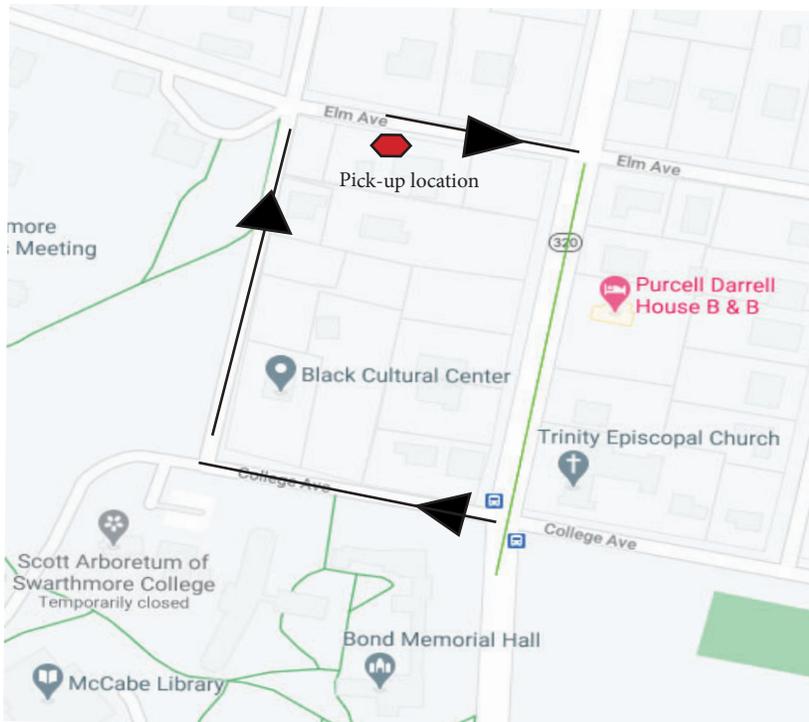

Walk-up Instructions: Saturday, May 11 from 8:30 to 10:30 am

- 1) Bring your membership card.
- 2) Go to the dividend tent which will be located in the Scott Arboretum driveway by the entrance to the Members' Plant Exchange and Sale.
- 3) After presenting your membership card, please indicate your top choice. A Scott staff member or volunteer will present you with a plant in a Scott tote bag.

2024 Scott Associates Spring Plant Dividend

***Phlox divaricata* 'May Breeze'**

woodland phlox

Fragrant, icy white flowers with a hint of lavender-blue blush. Flowers in mid-spring. A true darling for a shade garden, and voted as best white-flowered selection by Mt. Cuba Center.

Plant Type: herbaceous perennial

Height: 12-15" **Width:** 12-15"

Exposure: part shade

Water / Soil: average; humusy

Season of bloom: April—May

Use: groundcover, naturalizing, and nectar source for pollinators

Hardiness zone: 4-8
